

BHUVANESHWARI THAMMANABOINA

Hyderabad, India | bhuvaneshwarithammanaboina@gmail.com | +91 9553387337 | LinkedIn: [Bhuvaneshwari](#)
Associate Product Manager | B2B SaaS | AI & Engagement Products | 2+ Years

PROFESSIONAL SUMMARY

Results-driven **Associate Product Manager** with **2+ years of experience** building AI-powered products, user engagement solutions, and analytics platforms in B2B SaaS. Transitioned from an engineering background into product management, combining analytical rigor with user-centric thinking to deliver scalable, data-driven solutions. Experienced in **Agile and Scrum methodologies, sprint planning, OKR definition, and cross-functional execution**. Skilled in product discovery, PRD and MRD creation, roadmap prioritization, and A/B experimentation. Delivered measurable outcomes: **12% feature discoverability lift, 7% CTR improvement, 30% reduction in repeated support queries, and 15% faster first-response time**.

CORE PRODUCT COMPETENCIES

▪ Product Roadmapping & Prioritization	▪ PRDs, User Stories & Acceptance Criteria	▪ AI/LLM Product Thinking
▪ Product Analytics & Metrics Definition	▪ Agile, Scrum & Sprint Planning	▪ Feature Adoption & Engagement Optimization
▪ Go-To-Market (GTM) Strategy	▪ Stakeholder & Cross-functional Collaboration	▪ Customer Discovery & User Research
▪ OKRs & KPI Definition	▪ Experimentation & A/B Testing	▪ MRD, BRD & Release Planning

WORK EXPERIENCE

Deepta.AI (Acquired Apxor Technology & Solutions)
Associate Product Manager

September 2025 – Present

- **Diagnosed** support inefficiencies through support ticket clustering, chatbot query analysis, SLA breach tracking, and resolution-time trend analysis; contributed to **Go-To-Market (GTM)** strategy for AI product launch.
- Defined product requirements and **MRD for an LLM-powered triage system**, chatbot interaction layer, and contextual retrieval pipeline to automate case categorization, assist agent responses, and improve self-serve resolution rates.
- **Led Agile sprint planning and backlog grooming** for automated case creation and SLA-based routing workflows triggered via agent dashboards, improving operational precision in high-sensitivity support environments.
- **Mapped end-to-end chatbot → ticket escalation flows** with UX and Ops teams using **Scrum ceremonies**, reducing ambiguity in case diagnosis and strengthening user trust in AI-assisted automation.
- Prioritized automation roadmap using **impact vs. effort trade-off analysis aligned to OKRs**, balancing automation depth, model confidence thresholds, and manual review layers to ensure reliability and compliance.
- Monitored post-launch KPIs (chatbot deflection rate, resolution time, categorization accuracy), driving iterative improvements that achieved a **30% reduction in repeated queries** and **15% faster first-response time**.

Apxor Technology & Solutions
Associate Product Manager

September 2023 – September 2025

- **Identified low feature discoverability as a key growth bottleneck** through funnel drop-off analysis, session behavior tracking, and feature usage segmentation — translated findings into sprint-ready user stories and acceptance criteria.
- Led end-to-end Agile product delivery — problem definition → PRD creation → sprint planning → design reviews → release — ensuring alignment across engineering, design, and business stakeholders.
- Prioritized contextual engagement solutions (FAB Icon, Embedded Cards, Story Templates) using the **RICE prioritization framework** within quarterly OKR cycles, improving in-product guidance and user education.
- **Achieved 12% increase in feature discoverability and 7% CTR uplift** through contextual content delivery and interactive onboarding experiences.
- **Spearheaded Retention Analytics V2** development across multiple sprints, introducing frequency curves, event-property breakdowns, filters, and cohort saving for deeper user retention analysis.
- Defined analytics capabilities including **Metric Trees, Alerts, Annotations, and Third-Party Event Integrations**, improving KPI monitoring, anomaly detection, and event tracking visibility.

- **Enabled product, growth, and marketing teams** to analyze user behavior across cohorts, events, and retention patterns, supporting data-driven product and engagement decisions.

Apxor Technology & Solutions
Associate Customer Success Manager

March 2023 – September 2023

- **Identified onboarding friction and usability gaps** through configuration error analysis, support ticket trends, and customer feedback loops — uncovering recurring blockers in early product adoption.
- **Synthesized customer pain points into structured product inputs** and user stories, directly influencing roadmap prioritization and sprint planning for usability improvements.
- Led onboarding and education initiatives including workflow walkthroughs and feature adoption guidance, improving **configuration accuracy and reducing time-to-value** for new customers.
- Conducted KPI-driven business reviews analyzing adoption metrics, feature usage, and engagement patterns, contributing to improved **customer retention** and platform utilization.

KEY ACHIEVEMENTS

- **Designed real-time performance dashboards** to monitor engagement and operational metrics against OKRs, improving decision-making speed by **20%**.
- **Built an In-App Design Builder** enabling experimentation with user-facing content and layouts, supporting data-backed optimization across sprint cycles.
- Leveraged user interaction data to uncover behavioral insights, directly guiding feature adoption and engagement improvement strategies.

TOOLS & TECHNOLOGIES

Product Management: ClickUp, Notion, JIRA, Lovable, Snov.io, Lemlist
Analytics: Mixpanel, Amplitude, Microsoft Excel, WebEngage
Collaboration: Slack, Microsoft Teams
Methodologies: Agile, Scrum, RICE Framework, OKRs, A/B Testing, Sprint Planning

EDUCATION

Bachelor of Engineering – Civil Engineering	2019 – 2023
Matrusri Engineering College, Hyderabad (Osmania University) CGPA: 8.61 University Rank: 4th (Gold Medalist)	
Intermediate (TSBIE)	2017 – 2019
Nano Junior College Percentage: 89.7%	
Class X (ICSE)	2016 – 2017
Ramadevi Public School Percentage: 73.3%
